Updates on CS Students Return to Campus

Dear Students,

Pursuant to the recent announcement made by USM COVID-19 Nerve Center on 7th Oct 2020 with regards to the Admission of students to USM where we saw a spike in the application to return to campus.

The announcement made the specific circumstances and conditions very clear, upon which students would be allowed to return to USM.

Our general advice to our students is that DO NOT RETURN to the campus at least until the mid-semester break ends (7/12/2020).

However, we would give priority to applications that in our views deservingly fulfil the conditions as per stipulated in the announcement.
